Don't let the placid appearance fool you; this fifteen-foot drop-stitch inflatable platform can be used as a walkway, slideway, and boarding platform that easily connects to any Aquaglide Lakefront waterpark feature on both ends. Low-profile fully welded 10 cm drop-stitch construction results in a rigid and durable platform surface that's easy to board from the water and adds an extra play area for kids. The Full Deck 15.0 also makes a superior replacement for foam mats, which can be rough on sensitive skin, are less rigid, and lack long-term durability.
