The Spire is nearly seven vertical feet of climbing, splashing, flying excitement. This multi-use play structure screams fun from every opening. Four climbing walls angle inward for stability while the meridian mesh floor creates an interior splash zone for creative play. Optimized for Lakefront use, the Spire utilizes fully welded, reinforced PVC construction with three-layer seams for years of use. Can be used as a stand-alone or connected to Lakefront park or accessories (like Launch Bag!) on up to four sides.
